# Spirit of EAGLES

## *American Indian/Alaska Native Leadership Initiative on Cancer*

American Indian and Alaska Native (AI/AN) populations have very high incidence rates for specific cancer sites and poor survival rates for most cancers. This AI/AN Leadership Initiative on Cancer addresses comprehensive tribal cancer control through partnerships with The Network for Cancer Control Research among AI/AN populations, tribes, multiple cancer centers, Cancer Information Services (CIS), and the American Cancer Society (ACS). This Initiative will assist tribes 1) to increase community awareness and understanding of cancer, 2) to provide training in cancer control research for AI/AN researchers, and 3) to improve native community channels to the National Cancer Institute (NCI) so that research can be specifically focused on issues that affect Native people.

Application Deadline: **August 9, 2010**

Decisions will be made by: **August 11, 2010**

Scholarship notifications will be sent by: **August 12, 2010**

8th National Changing Patterns of Cancer in Native  
Communities: Strength Through Tradition and Science”
